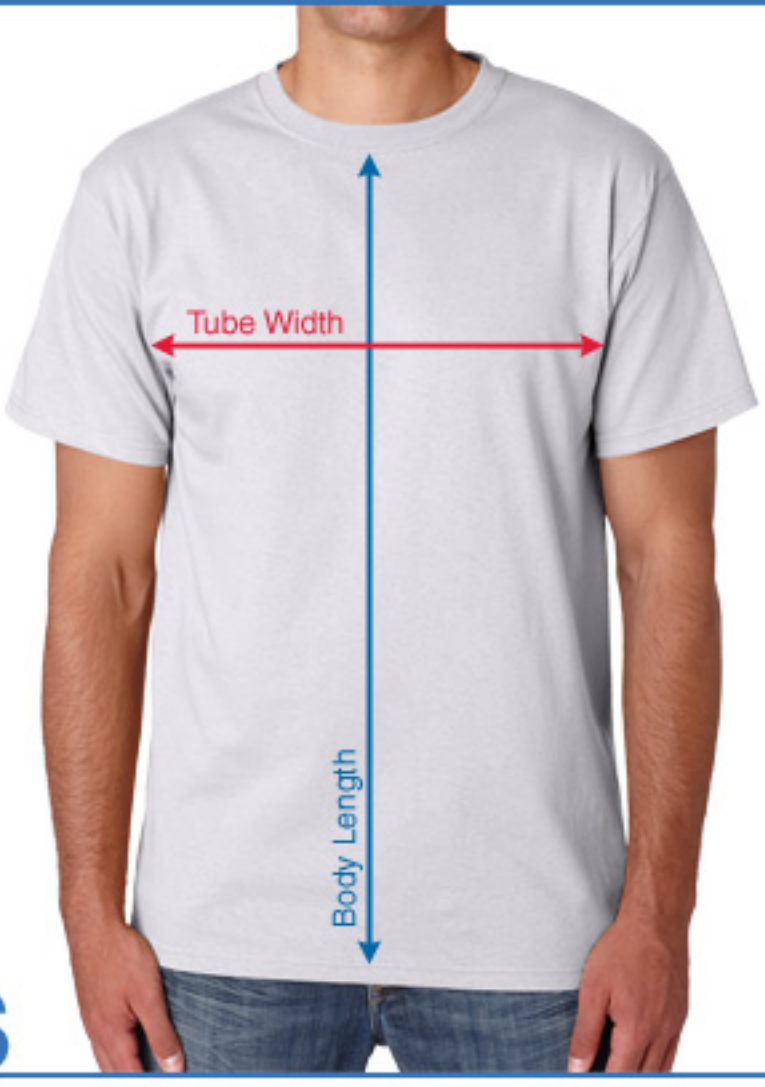
Select the correct size

The best way to select a size is to measure a shirt that you know fits well. First, lay the shirt flat and smooth out any folds or wrinkles. For the TUBE WIDTH, measure the shirt across the chest, from armpit to armpit. For the BODY LENGTH, measure the shirt from the bottom of the collar to the bottom of the front hem.



size specs

Finally, compare your measurements to the appropriate size chart. (Alternately, you can double the TUBE WIDTH measurement on the appropriate size chart to get an approximate chest size.)

T-Shirt

Made of 5.6 oz. heavyweight, 100% cotton garment; 2 needle stitched neck, taped shoulders for strength and comfort.

* Measurements vary due to nature of stretch fabrics.
